PHRENTECH

MIND HEALTH SOLUTIONS

Revolutionizing Mental Healthcare

A Strategic Two-Pronged Approach to Scale Therapy Access

investors@phrentech.com

AI + VR MENTAL HEALTH TECH · 2026

The Mental Health Crisis

Over 1 billion people live with a mental health condition. The system built to help them is broken.

$507B

Global MH Market

Total mental health market in 2026 — growing to $682B by 2035

>28%

Demand Met

Only 28% of U.S. mental health demand is currently met by providers

30K+

Unfilled Roles

Psychiatric positions currently unfilled in the U.S. alone

6–8 Wks

Wait Time

Average wait to see a mental health professional

Session costs of $100–200 put care out of reach — even when providers are available. Both a humanitarian crisis and a market inefficiency that technology can solve.

Our Two-Pronged Solution

Immediate AI access today. Immersive VR therapy tomorrow.

PHASE 1 — LIVE NOW

Phrenly AI Wellness Partner

- Evidence-based CBT / DBT / ACT frameworks
- Crisis detection & intervention protocols
- 24/7 on-demand — no waitlist, no referral
- Affordable subscription with free tier

Live 2026

PHASE 2 — 2026 BETA

PhrenTech VR Therapy Platform

- Immersive therapeutic environments
- Enhanced exposure therapy (PTSD / phobias)
- Real-time biofeedback integration
- Phrenly AI wellness partner embedded in VR

Beta 2026 · Capturing the next-gen therapy market

This two-phase approach lets PhrenTech generate immediate revenue through Phrenly while building toward the higher-value VR market.

Phrenly: Not Just Another AI Chatbot

What Phrenly IS

Evidence-Based Approach

Built on CBT, DBT, and ACT frameworks with clinical validation — purpose-built, not generic prompts.

Comprehensive Clinical Guardrails

Advanced monitoring detects crisis situations and suicidal ideation with immediate intervention protocols.

24/7 Therapeutic Support

Always-available wellness partner for anxiety, depression, and stress. Evidence-based techniques, on demand.

What Phrenly IS NOT

Not a ChatGPT Wrapper

Purpose-built therapeutic AI trained specifically for mental health — not a general chatbot with therapy prompts.

Not Generic AI

Unlike general wellness chatbots, Phrenly is designed from the ground up for clinical applications.

Not a Crisis Replacement

Integrated with crisis response systems — connects immediately to crisis resources and support lines when lives are at risk.

- All Plus features, enhanced
- Priority access to new features
- Wearable device integration (future)
- Exclusive therapeutic content

★ **Student discount: Plus tier at $12/month**

PhrenTech VR Platform: The Future of Therapy

$1.83B market (2024) growing to $10.7B by 2032 at 24.7% CAGR — we are positioned early.

66–73%

PTSD Success Rate

Clinical studies on VR therapy effectiveness for trauma

40%

Higher Engagement

Increased patient participation vs. traditional therapy

30%

Lower Dropout

Reduced abandonment rates with immersive VR protocols

Immersive Environments

Customizable therapeutic spaces from serene nature settings to graduated exposure scenarios.

Enhanced Exposure Therapy

Controlled, precise exposure with real-time biofeedback and AI guidance for phobias and PTSD.

Phrenly AI in VR

Our AI wellness partner embedded in VR — evidence-based interventions in real-time.

Clinical Dashboard

Analytics for providers to monitor progress and integrate VR with traditional care.

PhrenTech VR: Choose Your Therapeutic Environment

Each environment is clinician-recommended and designed for specific therapeutic modalities.

Serene Forest Retreat

Mindfulness and relaxation. Gentle sounds and nature immersion for reducing anxiety.

Peaceful Beach Escape

Meditation and stress reduction. Rhythmic ocean sounds and open horizons.

Cozy Library Study

Focused therapy and reflection. Cognitive exercises in a quiet, organized setting.

Open Sky Meadow

Breathing exercises and grounding. Expansive outdoor setting for emotional processing.

Customizable comfort levels, accessibility settings, and therapist-recommended protocols included.

Market Opportunity

2026 data — the window is wide open and we are moving now.

Affordable Pricing	✓	Limited	✓	✗

Comprehensive Solution

Unlike competitors focused on AI chatbots or VR alone, PhrenTech provides a complete ecosystem bridging today's technology with tomorrow's.

Clinical Foundation

Our clinical advisory board ensures all technology follows evidence-based protocols — setting us apart from wellness-focused competitors.

Scalable Architecture

Built for global scale with multi-language support — rapid expansion into international markets after the initial North American launch.

Traction & Milestones
